

Travel Green

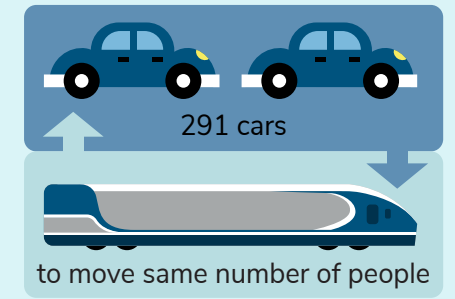

with the Pacific Surfliner

Efficient Travel

Average Vehicle Occupancy in US is 1.67¹

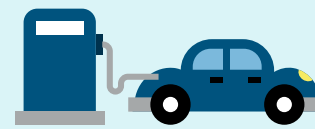

Good for the Planet

193M+ miles traveled by Pacific Surfliner riders in 2025, saving 69.5K+ tons of greenhouse gases

This is equivalent to:

67.2 million gallons of gasoline consumed

80,200 homes' energy use for one year

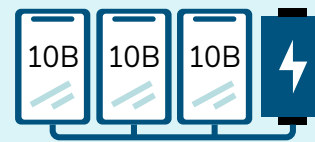

Onboard Eco-Friendly Experience

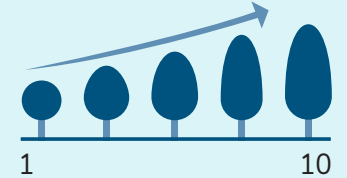

Expanding plant-based menu options

48 billion smartphones charged

9.8 million tree seedlings grown for 10 years

Clean Locomotives

Introduced in 2018, our Charger locomotives are among the cleanest in the nation²

Fully powered by renewable diesel in May 2023

No Car Needed

Our centrally located stations will get you close to various walkable destinations. Plus, free transit transfers make it possible to travel without a car.

16% more fuel efficient than previous locomotives

90% emissions reduction compared to previous locomotives

AMTRAK PACIFIC SURFLINER
